Date: 30 June 2022
Subject: Job opportunity – senior handy person

Aectual is looking for a product designer / senior handyperson

We're looking for a product designer / senior handyperson to develop further our furniture and interior systems (screens, walls, ceilings, floors, and more). Do you have a lot of experience with making, drawing, building, and testing prototypes, and are you up for a challenge? Contact us now!

Aectual is the go-to platform for made-to-measure architectural and interior products made in a 100% circular manner connected to cutting-edge technology and advanced XL 3d printing. We collaborate with famous and upcoming architects and designers and offer interior and architectural products such as floors, acoustic wall panels, furniture, and facades. Our number of architectural products and designer collabs is growing by the day, as is our company. From Nike and BMW to Schiphol Airport and Disney, our clients are based worldwide. Our products and company are built with sustainable design principles in mind – and everyone on our team vouches for 100% circularity.

What we offer:

- A competitive salary according to qualifications and experience
- Working hours that best fit your productivity, it can be a parttime or fulltime position
- A dynamic and inspiring workspace in Amsterdam
- Opportunity for personal growth and initiate your ideas
- Collaborate with the world's leading architecture and design firms and famous brands
- Reduced prices for Aectual's products

Required skills & character:

- Experience in product development and building prototypes
- You have an HBO work and thinking level or super experienced MBO
- Hands on, accurate and result-driven attitude, you like to build yourself
- Experience with creating work drawings is a plus

Your role and responsibilities:

- Produce mockups and prototypes
- Postproduction of 3D prints
- Develop prototypes into finished products ready for (mass) production
- Develop mounting details and maintenance protocols
- Develop new products, draw, create and test them
- Source matching materials, systems, and product partners

Interested in joining our team:

Send your application to Martine de Wit: martine@aetual.com , subject 'Handy person – your name, with attached a single .pdf containing:

- Letter of interest with a specific description of why and how you want to join our team
- CV

In case of questions regarding this job, you can contact Martine de Wit: martine@aetual.com +31 6 42118756
